

Thank you once again for inviting us at GoBike to attend your presentations on the Underline section of the Avenues Project. We wanted to write to congratulate your team for the vision and ambition being shown throughout the proposals within the project. It is so heartening to see people being put first in the plans, with moves towards a greener future for Glasgow city centre really apparent. We are also very impressed with the timescales being proposed and want to voice our support for the proposals we have seen so far.

Although we think can see evidence of this in the plans, we would like to reiterate how important we feel it is that your project connects in with other schemes and departments within Glasgow City Council working on active travel infrastructure, to allow for routes extending out of the city to link up with existing and planned networks. If there is anyway we can be of assistance as the schemes progress, please don't hesitate to get in touch.

Thanks and best wishes
