## Local Development Plan 2 – Early Engagement

**Dates: 3 Dec 2018 – 11 Feb 2019**

East Dunbartonshire Council is about to start working on a new Local Development Plan (LDP) for the area – LPD2. This is the first step towards preparing a strategy for the future use and protection of land in East Dunbartonshire by establishing where new development should be directed to. We want as many people as possible to contribute to this process, especially those who live in East Dunbartonshire.

A questionnaire is available and provides an opportunity for people to comment on land use change and planning issues in their local area. A separate 'call-for-sites' form is also available for anyone to identify site-specific suggestions for development. Further information is available on the Council website:

[www.eastdunbarton.gov.uk/council/consultations](http://www.eastdunbarton.gov.uk/council/consultations)

### Key things to consider...

What are the most important planning issues for East Dunbartonshire?  
E.g. housing, transport, town centres, the environment

What are the key priorities within your local area or community?

Is there enough housing in East Dunbartonshire to meet people's needs? If not, what type of housing is required?

How can we improve the current Local Development Plan?

## Early engagement sessions

Workshops and information drop-in sessions will be held throughout the public engagement period, where anyone can give their views on the new Local Development Plan 2 and relevant planning policy issues. Officers will be available to discuss any issues and answer any questions on the process. Workshops will consist of planned activities and exercises for groups of people, whereas the drop in sessions will be more informal in nature. Details of these events are set out below:

Paper copies of the forms are available at Council Community Hubs and libraries.

## Local Transport Strategy – Transport Options Report Consultation

**Dates: 3 Dec 2018 – 11 Feb 2019**

The East Dunbartonshire Local Transport Strategy is being refreshed and the first stage of this is the Transport Options Report. The Transport Options Report sets out preferred and alternative options for active travel, public transport, roads and parking. The report sets out options for the whole area and options specific to individual community areas.

The Council is carrying out a period of consultation on the Transport Options Report. The results of this consultation will be used to develop a draft Local Transport Strategy.

You can view the Transport Options Report and associated background reports on our consultation webpage:

[www.eastdunbarton.gov.uk/transport-options-report](http://www.eastdunbarton.gov.uk/transport-options-report)

A special 'Story Map' version of the Transport Options Report is also available to view on this webpage. The Story Map includes an online questionnaire - please use this to respond to the consultation.

Alternatively, copies of the documents are available at Council offices, community hubs and libraries, and comments can be sent by post using the contact details on Page 4.

This consultation will run in parallel to the period of early engagement on the Local Development Plan 2. Therefore, the drop-in sessions largely take place at the same time and location. Full details of the drop-in sessions are included in the table below:
